ACRYLGELS

SENS BY CRYSTAL NAILS PREMIUM ACRYL GELS

SENS ACRYLGEL

THE HOMOGENOUS POLYGEL WHICH COMBINES THE BEST QUALITIES OF ACRYGELS

The homogenous polygel which combines the best qualities of acrygels.

This is the upgraded version of acrylgel polygels. The consistency is homogeneous and it has excellent coverage. After curing, it is an almost dry surface. Thicker than the others, so they keep the shape better but require a stronger brush to work with. For starters we have clear, cover pink, and white colours. They won't burn during curing. For creating the white part of the french nail, we recommend to make a clear base foundation level. We recommend to use AcrylGel Assistant for this product. Curing time: 2-3 min in UV; 1-2 min in LED.

27ml (30g)

SENS ACRYLGEL

ASSISTANT

GENTLE TO THE BRUSH, EASY TO WORK WITH

Special shaping liquid for our AcrylGel. With the help of this product, you can work without the brush drying out. A small amount of this liquid is enough for stopping the AcrylGel to stick to the brush. It has a nice, tutti-frutti scent.

50ml

Sens Acrylgel with Cover Peach Plasty Gels

The nail was made with **Sens Cover Peach Acrylgel, S001, S004, S009 3G Gel** polishes and the decoration was made with the **Plasty Gel Brown, Pink and Yellow** by Barbara Újvári.

CRYSTAL NAILS XTREME FUSION ACRYL GEL ACRYL GELS

THE UNIQUE ACRYL GEL IS A MEMBER OF OUR 'XTREME' PRODUCT LINE, WITH EASY AND TIMELESS FORMABILITY

XTREME FUSION ACRYL GEL

New generation, non-heating, Xtreme dense, perfect shaping and easy to file hybrid AcrylGel builder gel. During the sculpting, the controllability of the gel and the formability of the acrylic is almost characteristic. After curing, it will have the same flexibility of gel combined with the same strength of the acrylic. It can be filed easily after curing and cleansing. The tube packaging provides cleaner working conditions. Accurate dispensing: a sufficient amount of the product is applied to the nail without any waste. Makes the sculpting faster compared to gels or acrylics. There's no need for base gel: use it with only cleanser. Extremely easy to file: the work with this material is fast and sparing for the customer and the technician as well.

Recommended files: Xtreme 180/180 Green File, Classic 150/150 (Blue) Zebra File or the IronX 150/180 file. It doesn't even lifting on the nails with cohesion problem, neither at sculpted nor the refilled nails. It can be combined with any other builder product line of Crystal Nails. Recommended top gel: Cool Top Gel Universal. The application of this material is recommended with softer brush: Nero Merlo I., CoverPRO Brush, Xtreme Acrylic brush, or any other natural (non artificial), round formed brush. Curing time: 4-5 min in UV, 1-2 min in LED

30g –
60g – Clear and Cover Pink colors!

♥ CN advise:
when you use the Extra White,
make a base-layer first with a Clear
acrygel, in order to cure properly

Density ●●●●●+

♥ CN advise: use UV/LED
or LED lamp for the acrygels
for the faster salon work.

When you use the Extra
White, make a
base-layer first with
a Clear acrygel, in order
to cure properly.

In eight colors: the bright shine of Rose Quartz, the Mermaid Latte, the most popular Cover Pink, the sparkling Shimmer Latte, brilliant Extra White, the transparent Clear, the perfect White which is perfect for Baby Boomer, and the gorgeous Transparent Pink for warmer shades.

XTREME FUSION ACRYL GEL INTRO KIT (3X3,5GR)

We made a trial kit with the AcrylGels so you can try it. The AcrylGel doesn't burn while curing, thick, it has extremely good shaping attributes and you can file it easily. When you sculpting, the flexibility of the gel and the manageability of the acrylic are merging. After curing, it has to be cleansed and after that you can shape it easily with files.

The kit contains:

Xtreme Fusion AcrylGel Clear - 3,5gr, Xtreme Fusion AcrylGel Cover Pink - 3,5gr,
Xtreme Fusion AcrylGel White - 3,5gr

TUBE SQUEEZER - TUBUSKINYOMÓ

We made this product for easier and faster salon work. Rollers made of aluminium so it is durable and long lasting. Suggested for Xtreme Fusion AcrylGel. Using the squeezer prevents bubbling the gel after squeezing it out.

♥ You can find the Xtreme
Fusion Tips on page: 108.

BUILDER GELS AND BASE/COVER GEL

TRANSPARENT (CLEAR) BUILDER GELS

XTREME SUPERIOR CLEAR GEL

NEW GENERATION OF BUILDER GELS,
EVEN FOR NO FILING TECHNIQUE

A new generation of builder gels with a nice purplish tone which cures at lower temperatures due to its low heat generation formula. An easy-to-use crystal-clear Xtreme builder gel that provides fast work with its medium density. Super-strong, flexible and still easy to file. It can be used as a builder gel for short and long nails as well.

Curving time: 20-25 sec in UV; 8-10 sec in LED, Curing time: 2-3 min in UV; 1-2 min in LED.

POPULAR

XTREME CLEAR

TRANSPARENT, THICK, ULTRA STRONG BUILDER GEL

Top quality, dense, non-yellowing, purplish (UV filter and color brightening effect), hard, clear builder gel. It is the strongest Crystal builder gel, so it can be pinched and shaped very well. Extremely shiny and the cohesion is very good too. Perfect for extreme shapes and pinching. Can be used for the creation of both short and long nails. It cures fast because of a special accelerator material in it. It might cause burning sensation, so cure the nails fractionally: first 5 secs, then take the clients hand from the lamp for 5 secs, then cure it for 10 secs, then you can pinch it. This way it will not cause burning. Apply it with a firmer brush: Firm Gel or Nero Merlo III. brush.

Curving time: 10-15 sec in UV; 5-8 sec in LED. Curing time: 2-3 min in UV; 1-2 min in LED.

TITANIUM

TRANSPARENT, MEDIUM THICKNESS,
SPECIAL XTREME BUILDER GEL

Medium thick, blue-ish (in the jar), clear builder gel, with special consistency. Thanks for a secret ingredient, the material keeps itself together, does not flow around. It is very easy to spread it on the surface, but it keeps the sculpted shape very well, which permits a quick and precise work. Ensures maximal control, which is an essential tool of the quality work and with this builder gel you can easily make a C-curve. It can be used for the creation of both short and long nails. We also suggest it for the beginners. Apply it with a softer brush: 6 Gel brush, Xtreme Gel brush, Nero Merlo II. brush.

Curving time: 40-50 sec in UV; 10-20 sec in LED. Cure time: 2-3 min in UV; 1-2 min in LED.

TRANSPARENT (CLEAR) BUILDER GELS

French nails with gel

The nail was made with **Xtreme Superior Gel** and **Highlight Gel** by Virág Halász.

GUM GEL

Medium soft, clear builder gel with a soft bluish shade. Extremely flexible, formable gel. Easy to shape and file. It can be applied in the salon work perfectly. Very easy to handle. Because of its strong adhesion, apply it under any builder gel as a base at problematic clients. Moves together with the natural nail plate, that is why it won't lift and break. Because of the flexibility of the product, we recommend to use it for the sculpting of nails with minimal length. Apply it with a softer brush: Xtreme Gel brush, 6 Gel or Nero Merlo II. brush.

Curing time: 2-3 min in UV, 1-2 min in LED.

5ml
15ml
50ml

Density ●●○○○

BUILDER CLEAR I. CLEAR, THICK BUILDER GEL

Medium thick builder gel, due to its ice blue color, it has color brightening effect. It has gelatinous consistency in the jar, very dense builder gel, but becomes softer from the heat of the hand, it will be easier to handle this way. We recommend for natural nail length. It cannot be curved. Recommended brushes: Xtreme Gel brush, 6 Gel brush or Nero Merlo II. Curving is not possible. Curing time: 2-3 min in UV; it doesn't cure in LED.

TRANSPARENT (PINK) BUILDER GEL

Xtreme Superior Builder Gel Natural Pink

The nail was made with **Xtreme Superior Builder Gel Natural Pink**, the decoration was made with **Light Rose AB Nova Crystals** and the **Rosegold Diva Glitters** by Alexandra Mész

XTREME SUPERIOR BUILDER GEL NATURAL PINK

THIS IS THE NEW BRIGHTER AND MORE PINK SHADE
OF OUR XTREME SUPERIOR GEL PRODUCT LINE

Most of people like the contrast between the tanned skin and the light nail color. By using this shade of builder gel, it is easy to reach this contrast. In winter, the shade of this product could match the lighter and more fade skin. In case of growing off, it will not be seen too much, because of the color of the gel. It is recommended for those who don't like the browny or purple-ish gels. The Xtreme Superior Builder Gel product line of a builder gel family which can be perfect for the file-free technique. This Natural Pink shade has fine coverage and it can be used by itself or for creating french nails as well. We recommend to use a base gel underneath.

Curving time: 20-25 sec in UV; 8-10 sec in LED. Curing time: 2-3 min in UV; 1-2 min LED.

5ml

XTREME SUPERIOR BUILDER GEL COVER PINK FOR NO FILING TECHNIQUE AS WELL

The Cover Pink shade of our Xtreme Superior Gel which is a perfect choice for file-free technique. The cover pink is a natural cover color, which could be used for its own or for a french nail. For the proper cohesion, use a base gel before. It can be used for a refill as any refill material could but the coverage is stronger. Superior Gel Cover Pink is suitable for filling the nail completely, similar to a Refill material, but its coverage is stronger than that. The heat generation during curing is extremely low and there is no strong burning sensation.

Curving time: 20-25 sec in UV; 8-10 sec in LED. Curing time: 2-3 min in UV; 1-2 min in LED.

TRANSPARENT (PINK) BUILDER GEL

XTREME PINK FIBERGLASS BUILDER GEL

Transparent, medium thick, milky pink builder gel. This is the strongest pink builder gel in our repertoire. Easy to handle. Use for higher the nail bed or for sculpting a whole nail! Removes the color imperfections of the nail bed. It contains fiberglass, which makes the nails extra strong. Because of an accelerator component, it cures faster. During the curing process the gel could be hot, so cure the nails in sections: first 5 secs, then take the clients hand from the lamp for 5 secs, then cure it for 10 secs, then you can curve it. This way it won't cause burning sensation. Apply it with a harder brush: Firm Gel or Nero Merlo III. brush.

Curving time: 10-15 sec in UV; 5-8 sec in LED. Curing time: 2-3 min in UV; 1-2 min in LED.

5ml
15ml
50ml

MILKY ROSE BUILDER GEL FULLY PINK, MODERATELY THICK BUILDER GEL

Light Pink shade and it has a similar ability to cover like the Cover Refill Gel. Unique shade of pink builder gels what we can use in every phase of salon work: building the whole nail, filling up, even for the babyboomer. Because of the amount of the pigments, it can cure in a thicker layer. Use a base gel for proper cohesion, e.g. Compact base gel. Cure this periodically to avoid the too much heat. For curving, build a clear base because this gel cannot be curved individually.

Curing time: 2-3 min in UV; 1-2 min in LED.

♥ CN advise:
Use the Low heat mode on
LEDExtreme lamp to avoid the massive heat!

TRANSPARENT (PINK) BUILDER GEL

ANTIFUNGAL PEDI GEL BUILDER GEL

Builder gel for nail correction, or replacement of nails. Soft, light peachy pink, almost clear gel. Use it for the creation of short natural-effect nails especially on feet.

Curing time: 2-3 min in UV; 1-2 min in LED.

5ml
15ml

Density

Pedi technician's favorite.

NAILBED EXTENSION COLORED (COVER PINK) BUILDER GELS

XTREME PUDDING+ BUILDER GEL SOFT PINK COVER PINK BUILDING GEL

It combines the flexibility of liquid building gels with the strength of pudding gels. It is very easy to work with because its texture allows it to be spread quickly and evenly on the nail surface. It is also suitable for traditional techniques, but it can also be distributed beautifully without grating. Shorter and longer nails can be made with it, in both cases the work with it will be very durable and long lasting. It has a beautiful, natural color and strong opacity, it can be used to create a nail bed, but also to build a complete nail.

Base Gel should be used for proper adhesion. It bends well, binds hard, is easy to file. Curving time: 20-25 sec in UV; 8-10 sec in LED. Curing time: 2-3 min; 1-2 min in LED.

5ml
15ml
50ml

Density

CN advise: As with any cover gel, clear precipitation may occur on the surface of the material. In this case, smooth the material with a spatula, but do not mix.

COVER PINK NAIL BED EXTENSION GEL

Nail bed extension gel with natural color and it perfectly covers the nail. The color of this gel is almost the perfect match for most of the clients. Easy to use, softer type of gel. This gel has a softer consistency, easy-to-handle, easy-to-work-with. With this gel, you can easily make the perfect color-transition in the cuticle-area and it has a perfect coverage near the smile-line. Apply it with a softer brush: Gel brush 6, Xtreme Gel brush or Nero Merlo II. brush.

Curing time: 2-3 min in UV; 1-2 min in LED.

Most popular cover shade.

NAILBED EXTENSION COLORED (COVER PINK) BUILDER GELS

GELLY COVER PINK BUILDER GEL

NEW CATEGORY BETWEEN THE COVER REFILL AND THE XTREME FUSION PRODUCT FAMILY

Cover gel what provides a perfect coverage. It can be applied on the whole nail or for the nail bed extension. The material is perfectly homogen so the nails won't be mottled or transparent. In one step you can make the heightening and nail bed extension. Thanks to it's new „pudding” texture the material stays where we put (not selfleveling) and easy to apply because it's not runny. The desired form/curve can be made easily. This gel is the perfect choice for making high smile line wall thanks to its shape holding feature. At refilling or sculpting process we can put on the material all the five fingers so we can save time. Thanks to its perfect adhesion it wont be airy under the nails. Not so flexible but it is stronger and does not break. We recommend you to use the Gelly Brush for this gel. If you would like to cure it, create a base layer with a clear gel, because it is not possible to cure it on its own.

Curing time: 2-3 min in UV; 1-2 min in LED.

5ml
15ml
50ml

Density

It has a new, „Pudding” texture.

ROCKY COVER LIGHTGEL NAIL BED EXTENSION GEL

Gel with medium warm, natural shade of pink color, for nail bed extension. The most popular Cover Pink color. Thanks for the self-leveling attribute, it is very easy to spread. It's not messy, doesn't flow around, and because of that, it is very easy to make a smile-line with that. The easy-to-handle Cover Pink which can cures even if you apply it a thicker layer. Recommended brushes: Gel Brush 6, Xtreme Gel Brush or Nero Merlo II. brush.

Curing time: 2-3 min in UV; 1-2 min in LED.

5ml
15ml

Density

Made with Cover Pink nail bed extension builder gel

The nail was made with **Titanium Gel, Cover Refill Hard Gel**
and **Cool Top Gel Universal** by Virág Halász.

Made with nail bed colored cover builder gel

The nail was made with **Cover Refill Hard Gel, Xtreme White Builder Gel** and the decoration was made with **Ornament Gel** by Virág Halász.

COVER REFILL GELS BUILDER GELS

Builder gel with natural effect and optimal coverage developed for refillings. It is a slightly covering Cover Pink, the color of this product is identical with the most popular Cover gel. In case of nails with nail bed extension the regrowth area can be filled in full thickness. With less pigments, that's why even if you use in full height, it will look like as a regular nail bed extension gel worked towards the root of the nail, nicely mashed. The work is faster with it, as the Cover Pink and the Clear material can be replaced at the same time (2 in 1): due to its pigment content, the color of the nail bed will be even, it can be used for nail bed enhancement. Recommended brushes: 6 Gel brush, Xtreme Gel or Nero Merlo II. brush. Use it with base gel for the proper cohesion (e.g. Compact Base Gel).

They're not so pigmented so when you sculpting or filling a nail, it will look like if it would be a regular nailbed extension, meanwhile we could create a smile line with a perfect coverage. The filling process is faster because it can be used for clear and cover pink as well. Also, it can be used for babyboomer technique too.

Curving time: 30-35 sec in UV. 20-25 sec in LED. Curing time: 2-3 min in UV; 1-2 min in LED.

POPULAR

COVER REFILL HARD GEL

More dense version of the Cover Refill Gel. The color of those two is very similar to each other: beautiful pinky shade.

WHITE BUILDER GELS

BABYBOOMER-CRYSTAL WHITE BUILDER GEL

We would like to do a favour for the lovers of babyboomer nails with this glittery new product. It contains silver pearly ice crystals which made this white builder gel softly smooth and sparkling. The gel is medium dense and it's easy to work with. If you apply it in a thin layer it will be transparent, if it's thick it has good coverage. It is a good material to pinch. We recommend you to use a softer brush: Gel 6 brush, Xtreme Gel brush or a Nero Merlo II. Curing time: under UV lamp 2-3 mins, under LED lamp is 1-2 mins.

BRILLIANT GEL

SPARKLING GLITTER

BRILLIANT GELS

5ml

BRILLIANT GEL

The Crystal Nails BRILLIANT color gel collection is in the special container gel and the glitter particles that shine more intensely than ever before, almost light up and vibrate. In addition, its colors are much more vibrant, so they can be distinguished from afar.

On advice:

Brilliant gel decoration advice: We recommend you to use Brilliant gels between layers: one layer of builder gel as the base, cure it than decorate it with Brilliant gel, after this cover it with builder gel and make the C-curve.

1. FLY-BRILL GELS

The light of fly-brill product-line of crystal nails makes you dazzle before you even get a chance to use it: it's enough to open the jar! These gels are ready to use without blending them, and most importantly, this gel has so good viscosity, it will leveling itself under the brush. Spectacle and easy-to-handle: this is the fly-brill.

2. FULL DIAMOND GELS

The main attributes of the full diamond color gels is that they shine bright like a diamond. It's shining strongly than ever, in truly wild colors.

Brill effect

This nail is made with Xtreme Fusion AcryGel Cover Pink and S20 color gel (The nail is made by Monika Majnik).

DECORATION GELS

Special Nail Art Gels

NEW! SENS PLASTY GEL

This playful nail art gel could get the fantasy alive.

This is an extremely thick; plasticine consistency nail art decoration gel.

We recommend using a spatula to get the material out of the jar. Use 3D brush and cleanser for the working process. Non-cleansing product, it doesn't require any top gel.

For the preparation, we recommend you to use your fingers and hands (if you're allergic, use gloves). You can also use the SENS by Crystal Nails Natural 3D brush family to earn the required form. We suggest using a small amount of cleanser (not colored; not scented) for optimal usage. Curing time: in LED lamp is 1-2 minutes, in UV/LED is 2-3 minutes. We have 4 sparkling and 4 vivid color shades that bring a luxury appearance for all nails. We have 6 decoration colors which can be mixed.

ART GELS

Gels which can be used for paintings, for those who love nail art. Thick, non-cleansing and extremely strong pigmented product. It could cover in a thin layer too. Thanks for the viscosity, it doesn't move or flow around while you working with it. It will cling it on shiny or matte surface and you don't have to cleanse it after curing. You can use it for One Move or Gel Painting technique; or make thin lines with it. With our Art Gels, the color transitions are more solid and homogeneous, the color of the patterns are more vivid and lively. It cures in UV and in LED as well. The cure time: in UV lamp is 3-4 minutes, in LED lamp is 2-3 minutes.

CN advice:

The Art Gel painting gel is only for decorations! It's not suitable for painting the whole nail surface or the free edge!

Apply an extra thin layer, to help the adhesion - minimal amount on the brush.

With the help of Ombre Sticks, sponge head brush to make the perfect transition of the Art gels!

Let's make babyboomer nails with the help of white Art GEL.

Use this to make flowers with one movement!

NON-CLEANSING DECORATION GELS

ART GEL PRO

It's available, in a practical jar version.

ART GEL PRO - CREAMY PAINTING GEL

Creamy, soft, strongly pigmented art gel makes the painting easier. The favorite attributes of the Art Gel remained unchanged: strong coverage even with a thin layer, non - cleansing. The Art Gel Pro has better, different consistency, which is easier to handle. The work with this product is way more faster and the result will be more homogeneous. We can draw a longer and thinner line, it won't break. The brush is almost glide by itself on the surface. It is a perfect choice for contouring, for drawing thin lines due to the color's intensity.

3ml

The Art Gel and The Art Gel Pro can be mixed together, so the variety of the colors is spectacular.

ROYALCREAM GEL - CREAMY ROYAL GEL

Non-cleansing, thick decoration gel which combines the thickness of the Art Gel and the easy-to-handle attribute of the Royal Gels. It doesn't stretch, the viscosity is like a pasta, it gives a perfect 3D effect for the painted pattern. It will cure perfectly, if you apply it with a thicker layer. The colors can be mixed whatever way you want to.

Cure Time: 2-3 min (UV), 1-2 min (LED)

3ml

NON-CLEANSING DECORATION GELS

BUBBLEGUM COLOR GEL

This decoration gel can be stretched without any break. Non-cleansing, and it doesn't require any cover. It can be combined with ChroMirror or any Pigment Powders, effect Powders. Skin Guard is recommended before using it, to easily remove from the skin. It can be used with decorating needle or brush. It can be stretched with a decorating needle or a brush, for geometric patterns. Cure time: 2-3min (UV), 1-2min (LED)

3ml

Can be stretched for long time in room temperature.

STAMPING COLOR GEL

Non-cleansing, highly pigmented stamping gel, which is re-usable: that means that you don't have to apply gel on the stamping plate so often, you can push the stamp more than once on the plate. If you using this gel, you don't have to race with time because it won't dry on air: only in lamp.

The curing time is 1-2 minutes in LED, 2-3 minutes in UV lamp.

3ml

NON-CLEANSING DECORATION GELS

LACE GEL

The Lace Gel is an extra thick plasticine-like material, which we can use to make a perfect 3D patterns or apply it in a thin layer and create visionary lace patterns. Use it on the fully cured top shine! For making lace patterns, use a spatula for taking it out from the jar, apply it on the surface and with a little help of Cleanser. For working with it, we recommend you to use Mini 3D or 3D brushes or silicone brush. For the 3D patterns we can shape with our own fingers. Non-cleansing. We can colorized it with Art Gels, and don't cover it with anything. Cure time: 2-3 min (UV), 1-2 min (LED)

3ml

ORNAMENT GEL - MAKE THE ORNAMENTS PATTERN-MAKING EASIER WITH OUR ORNAMENT GEL!

Non cleansing gel with medium consistency for those nail techs who love to make ornaments on the nails. It is perfect for drawing very thin lines or making thicker patterns with it. This product available in 5 colors. The cure time: 2-3 minutes in UV , 1-2 minutes in LED.

5ml

The meeting of Art Gel and Lace Gel

This nail on the picture is made with **3S112 Crystalac**, and the decoration is made with **Art Gel** and **Lace Gel**. (This nail is by Kesztyűs Dóra).

NON-CLEANSING DECORATION GELS

DESERT GEL - FROST EFFECT

It could be used to build a whole nail with it but it can be used for decoration as well, because of the thickness of the material. The specialty of this gel is the rusty „sand-ish” effect on the surface. You can scratch patterns to the surface, thanks for the thickness. You can make color-transition too, because they can mixing easily. It can be used for 3D effects because it can be cured in a thicker layer. It is available in 6 colors: white, peach, baby pink, lavender, baby blue and mint. We suggest you to use Gelly, Acrylic, Phantom or Art design brushes for the application!

Cure time: 2-3min (UV), 1-2min (LED)

3ml

White

Peach

Baby pink

Lavender

Baby blue

Mint

CN advise:

For making more colors, use a bit of Art Gels but you can mix them together perfectly.

3D GEL

Extra thick gel but easy to use, non-cleansing it can cure in thick layers as well which is good for 3D patterns. It will cling to the shiny surface as well. Easy to work with it if you use Mini 3D or 3D brush and for creating thin pattern or motives use 0 Short, Art Design or Phantom brush. After curing the surface will be shiny and dry.

Cure time: 3-4 min (UV), 2-3 min (LED)

5ml

808 White

HIGHLIGHT GEL

Brightly white, highly pigmented decorating gel which has a new practical jar look. It's a non-cleansing material that can be used for many decorating techniques or just by itself. You can use it even on top gels. Due to it is being highly pigmented, apply it thinly layer to the nail surface. You can also make french nails by painting them on the made nail surface. We DON'T recommend it as a replacement for gel polish because it is not a flexible material, in that case, use the Snowwhite 3S78 3 STEP Crystalac. The cure time: in UV lamp 3-4 minutes, in LED 2-3 minutes.

5ml
