## Section 1 – Identification of the Substance/Preparation and of the Company/Undertaking

**Material/Product Name:** Color Powder  
**Chemical Name:** N/A

**MSDS Approval Date:** 11/29/2000  
**MSDS Prepared by:** BSQ

**Manufacturer/Distributor:** Litrox Factory Investments LLC (443960-91)  
 US 8130 SW Portland, Oregon,  
 Beaverton-Hillsdale Highway 97225.

**Family:** ACRYLIC POLYMER

**Product Use:** NAIL POLYMER

**Product #:** various

## Section 2 - Composition/Information on Ingredients

## Section 3 - Hazards Identification

### EMERGENCY OVERVIEW

This information is based on findings from related or similar materials.

- May cause allergic skin reaction.
- May cause eye irritation.
- Dust may cause irritation of the nose, throat, and lungs.
- This product may contain particulate, not otherwise classified (Nuisance Dust)

#### Potential Health Effects, Signs and Symptoms of Exposure:

**Primary Route of Entry** Eyes or skin (No absorption); inhalation of dust.

**Eye** Higher concentration can irritate eyes. May cause eye irritation or damage.

**Skin** Repeated or prolonged exposure may cause allergic skin rashes. Higher

**Ingestion** concentration can irritate respiratory system.

**Inhalation Sub-** Possible temporary discomfort due to inhalation of dust concentration above the permissible exposure limit. Dust may cause irritation of the nose, throat, and lungs.

**Chronic Effects** For Polymer: OSHA classifies this material as Particulates, Not Otherwise Classified. Eyes, skin and Respiratory tract may be irritated by gross overexposure to Particulates, Not Otherwise Classified, no matter how they are generated. Avoid inhalation of dust. Keep dust out of eyes to prevent possible irritation.

For decomposition product: Methyl Methacrylate Monomer; Liquid or high vapor concentration can irritate eyes, respiratory system and cause skin rashes. Prolonged exposure can lead to headaches, nausea, staggering gait, confusion, drowsiness and unconsciousness. Repeated and prolonged over exposure may cause permanent brain and nervous system damage, allergic skin rashes, eye corrosion and permanent injury, as well as changes in liver and kidney function or damage. For Benzoyl Peroxide: repeated or prolonged contact may cause skin sensitization. NOTE: Refer to Section 11, Toxicological Information for Details

## Section 4 - First Aid Measures

**First Aid for Eye** Flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.

**First Aid for Skin** Wash with soap and water. Get medical help if discomfort persists.

**First Aid for Inhalation** Remove to fresh air. Get medical help if discomfort persists.

Revised Date: **10/28/2004** | Replaces Date: **09/17/2002**

First Aid for Ingestion      Rinse mouth out with water. Call doctor if amount was large.

## Section 5 - Fire Fighting Measures

Flash Point (°F/°C)	Flammable Limit (vol%)	Auto-ignition Temperature (vol%)
TAG Closed: 580°F/304°C	N/A	N/E

### Method:

Extinguishing Media:      Water, carbon dioxide, dry chemical.

Fire Fighting              Avoid extinguishing methods that generate dust clouds. Water streams can disperse dust into air, producing a fire hazard and possible explosion hazard. Fire-fighters should wear self-contained breathing apparatus.

Instructions:

Unusual Hazards:        Polymer dust is combustible, explosive limits of the polymer particles suspended in air are approximately those of coal dust.

## Section 6 - Accidental Release Measures

Spill or Release            Sweep up to avoid slipping hazard. Keep airborne particulates at a minimum when cleaning up Procedures

## Section 7 - Handling and Storage

Handling                    Observe precautions found on the label. Wash face and hands thoroughly with soap and water after handling and before eating, drinking or smoking. Avoid prolonged or repeated contact with skin. Avoid contamination. Use only with adequate ventilation.

Storage                     Store in cool, dry place away from heat, sparks, flame and direct sunlight. Close container after each use. Ground all metal containers when transferring. Use explosion-proof equipment. Store away from combustibles and incompatible materials.

Explosion                    Polymer dust is combustible, explosive limits of the polymer particles suspended in air are Hazard                        approximately those of coal dust.

## Section 8 - Exposure Controls / Personal Protective Equipment

Engineering                Use good local exhaust at processing equipment, including buffers, sanders, grinders and polishers. High Controls                     temperature processing equipment should be well ventilated. Use explosion-proof equipment. Provide ventilation if necessary to control exposure levels below airborne exposure limits.

### Personal Protective Equipment

General	Dust collectors are recommended for handling powder in bulk.
Eye/ Face Protection	Use safety glasses and have eye flushing equipment immediately available.
Skin Protection	Minimize contamination by following good industrial practice. Wearing nitrile, neoprene, pvc, latex or other impermeable gloves is recommended.
Respiratory Protection	Avoid breathing dust and mist. Use dust mask.

To the best of our knowledge, the ecotoxicological and chemical fate properties have not been thoroughly investigated.

Do not allow to enter drinking water supplies, wastewater, or soil.

## Section 13 - Disposable Considerations

May be disposed of in a landfill or incinerated. Follow Federal, State and Local regulations for disposal. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.
