4. FIRST AID MEASEURE

General: Remove the injured person from the place of the accident. Remove immediately contaminated clothing. In general, in case of doubt, consult a physician and show the product label or this MSDS. Never give anything by mouth to a person who is unconscious or likely to become so (state of shock, etc...)

Inhalation: Fresh air, rest. Take medical advice.

Skin contact: Wash skin with plenty of water and soap. If necessary seek medical advice. Repeated or prolonged skin contact may cause defatting of skin irritation and/or dryness.

Eye contact: Irrigate copiously with clean, fresh water for at least 15 minutes, holding the eyelids apart. Obtain emergency medical attention. Contact with eyes may cause redness and discomfort which is transient.

Ingestion: Do NOT induce vomiting. Rinse mouth. Immediately consult a doctor/medical service.

5. FIREFIGHTING MEASURES

- **5.1. Suitable extinguishing media:** Chemical powders, carbon dioxide and other extinguishing gases may be suitable for minor fires. Special foam for polar liquids recommended. Avoid water without additives.
- **5.2. Fire hazard:** Fire often produces a dense black smoke and vapours (may be invisible) heavier than air and spread along ground. Exposure to decomposition products (such as carbon monoxide or dioxide) constitutes a serious health hazard. Do not inhale smoke. Vapours may form explosive mixtures with air.
- **5.3. Advise for firefighters:** Self-contained breathing apparatus to protect against toxic gases produced by thermal decomposition. Wear appropriate body protection (full protective suit).

6. ACCIDENTAL RELEASE MEASURE

- **6.1. Personal precautions:** No information available.
- **6.2. Environmental precautions:** Prevent product from entering drains or watercourses. If a large amount of product contaminates ground water, rivers or drains (or is likely to do so), notify the relevant authorities, following the statutory procedures.
- **6.3. Methods and material for containment and cleaning up:** Clean up any spills as soon as possible, using a non-combustible absorbent material to collect it, for example: sand, earth, vermiculite, diatomic earth. Collect material into suitable drums for disposal in accordance with regulations (see Section 13). It is preferable to clean with detergents, do not use solvents.
